

Web Site Instructions for Pregnancy Version 2

1. Download Pregnancy files from the CARE website.
2. Once files have been downloaded to your machine, click on the Start Button (*located in the bottom left hand corner of your screen*).
3. Click on Run.
4. Click on the Browse button.
5. The Browse menu will appear.
6. In the Look In drop down box, navigate to the folder that contains the pregnancy files that you downloaded from the GHA website.
7. Click on the setup.exe file.
8. Setup.exe will appear in the file name field.
9. Click on the Open button.
10. The Run dialog box appears with the location of the setup.exe file to run.
11. Click on the OK button.
12. The pregnancy setup starts to run.
13. Follow the directions for the install.
14. Once the install is complete, double click on the Pregnancy icon located on your desktop.
15. The splash screen will appear and then the Pregnancy main menu screen opens.
16. On the main menu, select the button named "Choose a Hospital" to select and verify your hospital.
17. Once you have verified your hospital, you are now ready to use the tool.
