### **Coffee Regional Medical Center Issues Statement in Response to the Potential for the Spread of Coronavirus**

(Douglas, Ga) - As your healthcare provider, Coffee Regional Medical Center conducts ongoing reviews assessing and reviewing protocols involving infectious disease containment and control. In response to the potential for the spread of Coronavirus within the United States, please be reassured that we continuously work closely with the Centers for Disease Control (CDC) and authorities from the State of Georgia to ensure care and safety of our caregivers and patients. We will share more information as it becomes available.
