AdventHealth to Host Community AngioScreen Event at AdventHealth Redmond on August 12

AdventHealth will host a Community AngioScreen event on Wednesday, August 12, from 7 a.m. to 3 p.m. at the AdventHealth Redmond.

The noninvasive vascular screening is designed to help identify risk factors for heart disease and stroke before symptoms occur. The screening takes approximately 10 minutes and provides immediate results to participants.

AngioScreen includes:

- Stroke screening/carotid artery ultrasound
- EKG of the heart
- Ankle brachial indexes
- Abdominal aortic aneurysm (AAA) screening

The screening is recommended for individuals with cardiovascular risk factors, including high blood pressure, high cholesterol, diabetes, obesity, smoking history, family history of stroke or heart attack, or a personal history of cardiovascular issues. Adults age 55 and older are also encouraged to participate.

"At AdventHealth, we believe prevention and early detection play an important role in helping people feel whole," said Mandy Byars, AngioScreen coordinator. "This screening gives community members

an opportunity to better understand their cardiovascular health and take proactive steps toward improving their well-being.”

The complete screening costs \$85 per person and is HSA eligible. Cash, checks, credit cards and HSA/flex spending cards are accepted. Appointments are required and can be scheduled online at <http://bit.ly/CommunityAngioScreen> or by calling the AngioScreen office at 706-290-8008.

About AdventHealth

AdventHealth is a connected network of care that helps people feel whole – body, mind and spirit. More than 105,000 team members across a national footprint provide whole-person care for millions of people annually through more than 2,000 care sites that include hospitals, physician practices, ambulatory surgery centers, outpatient clinics, home health agencies, hospice centers, the AdventHealth app and more. Our wholistic approach to improving the health and prosperity of our communities is inspired by our mission to extend the healing ministry of Christ.
