AdventHealth Redmond earns prestigious Pathway to Excellence® designation

Honor recognizes commitment to nursing excellence, whole-person care, and exceptional patient outcomes

Rome, Ga. – AdventHealth Redmond has earned the prestigious Pathway to Excellence® designation from the American Nurses Credentialing Center (ANCC), a national honor that recognizes health care organizations for creating a healthy, empowering work environment where nurses thrive.

This designation reflects AdventHealth Redmond’s commitment to supporting its nursing team, leading to higher job satisfaction, enhanced safety, and improved patient outcomes while continuing its mission of delivering whole-person care and extending the healing ministry of Christ to those it serves.

“Earning the Pathway to Excellence designation is a powerful affirmation of who we are and how we care for our team members as they care for our community,” said Isaac Sendros, president and CEO of the AdventHealth Redmond. “When our nurses feel supported and empowered, it directly impacts the quality of care we provide. This recognition reinforces our promise to care for our neighbors with compassion while advancing exceptional care for our community.”

The Pathway to Excellence Program recognizes hospitals that foster positive practice environments by listening to and engaging nurses at every level, encouraging shared decision making and providing the resources necessary for professional growth. Only a select number of hospitals in the region have achieved this designation, placing AdventHealth Redmond among an elite group recognized nationally for nursing excellence.

“For our nurses, this designation is deeply meaningful,” said Trish Price, Chief Nursing Officer at AdventHealth Redmond. “It reflects our voices being heard, our contributions being valued, and our commitment to one another. Pathway to Excellence validates the culture we’ve built together—one where nurses are supported in delivering safe, compassionate, high-quality care every day.”

For patients and community members, the designation provides added confidence that care at AdventHealth Redmond is delivered by engaged, supported nurses working in an environment designed to promote safety, collaboration, and excellence. Research shows that positive nursing work environments are linked to better patient experiences, improved outcomes, and stronger continuity of care.

AdventHealth Redmond’s achievement underscores its continued leadership in shaping the future of health care in northwest Georgia, investing in its caregivers, strengthening clinical excellence, and ensuring patients receive care that addresses body, mind, and spirit.

AdventHealth Redmond continues to lead the way in enhancing the future of health care, while remaining steadfast in its mission to care for our neighbors and extend Christ’s healing ministry to the communities it serves.

About AdventHealth

AdventHealth is a connected network of care that helps people feel whole – body, mind and spirit. More than 105,000 team members across a national footprint provide whole-person care for millions of people annually through more than 2,000 care sites that include hospitals, physician practices, ambulatory surgery centers, outpatient clinics, home health agencies, hospice centers, the AdventHealth app and more. Our wholistic approach to improving the health and prosperity of our communities is inspired by our mission to extend the healing ministry of Christ.
