Hamilton Medical Center earns “A” Hospital Safety Grade from The Leapfrog Group

DALTON, Ga. (May 5, 2026) – Hamilton Medical Center (HMC), part of Vitruvian Health, earned an “A” Hospital Safety Grade from The Leapfrog Group, an independent national nonprofit watchdog focused on patient safety. Leapfrog assigns an “A”, “B”, “C”, “D” or “F” grade to general hospitals across the country using evidence-based measures of patient safety focused exclusively on errors, accidents, injuries and infections.

“An ‘A’ Grade is a strong sign that Hamilton Medical Center is deeply committed to protecting patients from harm,” said Leah Binder, president and CEO of The Leapfrog Group. “We commend the leadership, board, clinicians, staff and volunteers for the role each played in earning this distinction.”

The Leapfrog Hospital Safety Grade stands as the only hospital ratings program focused solely on preventable medical errors, infections and injuries that kill more than 500 patients a day in the United States. This program is peer-reviewed, fully transparent and free to the public. Grades are updated twice annually, in the fall and spring.

Patient experience in the report is measured through the Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) survey, which the Centers for Medicare and Medicaid Services (CMS) uses to publicly report patients' perspectives of hospital care.

“This Leapfrog A grade is the result of the collaborative efforts of physicians, nursing and every discipline within Hamilton, supported by governance and executive leadership,” said Sandy McKenzie, HMC president and CEO. “Our commitment is to provide safe, high-quality patient care in a compassionate and caring environment.”

Founded in 2000 by large employers and other purchasers, The Leapfrog Group is a national nonprofit organization driving a movement for giant leaps for patient safety. The Leapfrog Hospital Safety Grade, Leapfrog’s other main initiative, assigns letter grades to hospitals based on their record of patient safety, helping consumers protect themselves and their families from errors, injuries, accidents and infections.

About Hamilton Medical Center

The flagship affiliate for Vitruvian Health's Northwest Georgia region, Hamilton Medical Center (HMC) is a 255-bed regional acute-care hospital that offers major medical, surgical and diagnostic services, including accredited stroke and chest pain centers. Advanced technology and wellness are two significant areas of focus for HMC. Services include the freestanding Hamilton Ambulatory Surgery Center, Hamilton Diagnostics Center, and Bradley Wellness Center, as well as a Level II trauma center, Peoples Cancer Institute, Heart & Vascular program (including open heart surgery), Hamilton Spine Health and Sport, Level III Neonatal Intensive Care Unit, and more.

About Vitruvian Health

Vitruvian Health, formerly Hamilton Health Care System, is a not-for-profit, fully integrated health system serving the Northwest Georgia and Southeast Tennessee regions. Vitruvian includes Hamilton Medical Center in Dalton, Ga., and Bradley Medical Center in Cleveland, Tenn., affiliated physician practices, walk-in care centers, retirement and skilled nursing centers, a diagnostic center, a cancer institute, an institute for children with developmental delays, and more. Known for its advanced care and personalized service, Vitruvian Health offers innovative treatment options in state-of-the-art facilities while maintaining a compassionate, friendly and tranquil healing environment.

The Vitruvian name draws from the organization's recognizable da Vinci-inspired Vitruvian Man icon, which has been a prominent part of Hamilton's logo since 1976. Da Vinci's Vitruvian Man represents harmony, balance, and the interconnectedness of all aspects of health, perfectly aligning with Hamilton's integrated system of care.
