Hamilton Medical Center Imaging receives CT Quality Award

DALTON, Ga. (October 27, 2025) – Computed Tomography (CT) associates at Hamilton Medical Center (HMC) recently received the CT Quality Award through Heartflow.

HMC uses Heartflow for its CCTA/FFR heart studies, which help diagnose cardiovascular risk.

Recipients of the Heartflow CT Quality Award are determined based on metrics assessing the quality and adoption of a medical center's cardiovascular imaging program. Recipients of the award were in the top 19 percent of global medical centers providing patients with a better pathway for identifying and understanding their heart health by utilizing coronary CT and the Heartflow Analysis.

"I am so excited to recognize our CT technologists and imaging nurses for their dedication and expertise in building our strong Cardiac CT Imaging Program," said Jessica Brown, Imaging inpatient manager. "Their hard work and commitment to quality have set a new standard for excellence in patient care. The Heartflow Award highlights the exceptional care and precision they bring to every exam and every patient."

Heartflow's vision is to transform coronary artery disease (CAD) from a disease that is the leading cause of death into one that can be managed for life. Its first-of-its-kind AI analysis creates a detailed 3D model of the heart – a window into the patient's future, empowering providers with insights to personalize each treatment journey.

About Hamilton Medical Center

The flagship affiliate for Vitruvian Health's Northwest Georgia region, Hamilton Medical Center (HMC) is a 255-bed regional acute-care hospital that offers major medical, surgical and diagnostic services, including accredited stroke and chest pain centers. Advanced technology and wellness are two significant areas of focus for HMC. Services include the freestanding Hamilton Ambulatory Surgery Center, Hamilton Diagnostics Center, and Bradley Wellness Center, as well as a Level II trauma center, Peebles Cancer Institute, Heart & Vascular program (including open heart surgery), Hamilton Spine Health and Sport, Level III Neonatal Intensive Care Unit, and more.

About Vitruvian Health

Vitruvian Health, formerly Hamilton Health Care System, is a not-for-profit, fully integrated health system serving the Northwest Georgia and Southeast Tennessee regions. Vitruvian includes Hamilton Medical Center in Dalton, Ga., and Bradley Medical Center in Cleveland, Tenn., affiliated physician practices, walk-in care centers, retirement and skilled nursing centers, a diagnostic center, a cancer institute, an institute for children with developmental delays, and more. Known for its advanced care and personalized service, Vitruvian Health offers innovative treatment options in state-of-the-art facilities while maintaining a compassionate, friendly and tranquil healing environment.

The Vitruvian name draws from the organization's recognizable da Vinci-inspired Vitruvian Man icon, which has been a prominent part of Hamilton's logo since 1976. Da Vinci's Vitruvian Man represents harmony, balance, and the interconnectedness of all aspects of health, perfectly aligning with Hamilton's integrated system of care.
