Memorial Satilla Health presenting hip and knee arthritis seminar on June 30

WAYCROSS, Ga. (June 21, 2022) – Memorial Satilla Health will offer a free seminar on “Help for Knee and Hip Arthritis” on Thursday, June 30 at 12 pm at the hospital’s annex building at 1800 Alice Street. Lunch will be provided.

Dr. Bob Pilcher and Dr. Jonathan Callegari will address managing the pain and the latest nonsurgical and surgical treatments, including robotic surgery. “Arthritis of the knee or hip can really impact your quality of life. There’s no need to suffer when treatments are available,” said Dr. Pilcher.

Dr. Callegari added, “Knee or hip osteoarthritis is a big contributor to physical disability in older individuals. The good news is that there is help and hope for those who suffer from this common joint disorder. We hope you will join us to learn more.”

For more information or to register for the event, call (912) 584-6201 or visit MemorialSatillaHealth.com/calendar.
