Southeast Georgia Health System WOW Mobile Offers 3D Mammograms

BRUNSWICK, Georgia: October 25, 2024 – The Southeast Georgia Health System Wellness on Wheels (WOW) is custom designed to make breast health care services conveniently accessible for all women in southeast Georgia. It is a completely self-contained mobile health vehicle that features digital 3D mammography and travels to rural locations in Brantley, Camden, Glynn, Long and McIntosh counties to offer breast imaging services.

The screening experience on the WOW is very similar to the Health System's Imaging locations: it's staffed by female mammography technologists specially trained to perform breast imaging; all mammograms are read by Health System radiologists; most insurances are accepted and financial assistance is available to patients who qualify. For information about low or no-cost mammograms for uninsured or low-income persons, please call 912-466-5235.

The WOW will provide mammograms at the following locations during the month of November. Please note that all mammograms require a physician's order.
