Mobile Health Vehicle Offers Digital Mammograms

Southeast Georgia Health System's WOW Travels to Rural Southeast Georgia Locations

BRUNSWICK, Georgia: March 16, 2023 – The Southeast Georgia Health System Wellness on Wheels (WOW) is custom designed to make breast health care services conveniently accessible for all women in southeast Georgia. It is a completely self-contained mobile health vehicle that features digital mammography and travels to rural locations in Brantley, Camden, Glynn, Long and McIntosh counties to offer breast imaging services.

The screening experience on the WOW is very similar to the Health System's Imaging locations: it's staffed by female mammography technologists specially trained to perform breast imaging; all mammograms are read by Health System radiologists; most insurances are accepted; and, financial assistance is available to patients who qualify. For information about low or no-cost mammograms for uninsured or low-income persons, please call 912-466-5235.

The WOW will provide mammograms at the following locations during the month of March and April. Please note that all mammograms require a physician's order.
