

AUGUSTA UNIVERSITY
**GEORGIA CYBER
CENTER**

Cyber Resiliency Center

No additional DCH
approvals needed!

Sustainable Cybersecurity for Rural Healthcare

Helping rural hospitals strengthen protection
now and build capacity for the future.

**Healthcare cybersecurity cannot be a
one-time fix. It must be:**

- Continuous
- Affordable
- Adaptable

**to face evolving threats, technologies,
and compliance demands**

Rural hospitals gain:

- Expert-led support
- Advanced cybersecurity tools
- Technical and compliance services
- Workforce development

How is this possible?

- We leverage our unique ecosystem of government, academia, and private sector partners
- Utilizing the capacity of world-class education program and students at Augusta University

***World-class cybersecurity.
Sustainable workforce pipelines.
One sustainable model.***

AUGUSTA UNIVERSITY
**GEORGIA CYBER
CENTER**

Cyber Resiliency Center

No additional DCH
approvals needed!

More than a cybersecurity service **A Resiliency Platform for the Future of Rural Healthcare**

The CRC helps close cybersecurity gaps with a comprehensive, tailored program supporting immediate priorities and long-term maturity.

Core Subscription Includes:

- Virtual CISO-as-a-Service
- Cybersecurity risk assessments
- Technical network scans
- Executive summary briefings
- Tabletop exercises
- Policy and SOP development
- Cybersecurity awareness training
- Industry certification training and vouchers
- Cyber workforce development support
- HITRUST framework alignment
- CrowdStrike Falcon EDR
- Annual cyber exercises and penetration testing

Cyber Resiliency Center provides rural hospitals with an innovative and more effective approach to cybersecurity:

- Practical
- Affordable
- Scalable
- Sustainable

*Not a one-time engagement.
An enduring relationship for
stronger cyber resilience.*
