- Total Negative Results – 163

“Our main hospital has been more severely impacted by COVID-19 than any other hospital in Georgia, and our entire health system is one of the hardest hit in the state. Our care teams have been able to manage this public health emergency with astonishing success, so far, but we are quickly reaching a critical mass. COVID-19 is now a crisis in our region, and the required response will quickly exceed the resources of any one health system,” said Scott Steiner, Phoebe Putney Health System Chief Executive Officer. “We have offered hospital space on our Phoebe North campus to the state, and we stand ready to operationalize that project. We are asking other hospitals to help share the burden of this growing crisis, but some have refused to accept even non-COVID patients from our hospital. Winning the battle against this pandemic will require a coordinated and cooperative response,” Steiner added.
